NEW DENTAL TREATMENT REVERSES LOCAL ANESTHETIC NOW AVAILABLE
WITH DR. DEAN WEBER

GRAND RAPIDS, MI, June 5, 2009 -- Dr. Dean Weber of the Aesthetic Dental Center has become the first dentist in Grand Rapids to offer a new product which reverses the effects of local anesthesia. OraVerse™ allows patients to quickly return to their normal routine after dental procedures without experiencing prolonged numbness in their mouth and lips.

“OraVerse™ cuts the time of being numb in half, which offers a great advantage to my patients,” says Dr. Weber “Patients are numbed up and then after treatment is completed I administer OraVerse™ so they can get on with their day with minimal interruption.”

OraVerse™ was recently FDA approved for children and adults. The active ingredient is phentolamine mesylate which has been used in other medical applications for the last 50 years.

Dr. Dean L. Weber of the Aesthetic Dental Center emphasizes aesthetic dental procedures and has been in practice for over 23 years. Weber regularly invests in technology to make dentistry perform better for his patients. Aesthetic Dental Center is located at 1621—44th Street SW, Wyoming, MI 49509. More information about the practice is available by calling them at 616.532.9003 or visiting online at www.mymakeoversmile.com
